

# Enhancing and Streamlining the Categorical Program Monitoring System

May 2008  
Update

# Purpose of the Project

- Support, enhance and streamline the current CPM process through the development and implementation of a web-based application.

# Perceived Need

## Current CPM process

- Paper “heavy,”
- Labor and resource intensive,
- Time-consuming
- Requires collection, management, sharing and storage of numerous documents

# Solution : Process Review and a Web-based Application

- Review current CPM processes
- Garner input
- Identify improvement areas
- Develop and implement a plan
- Go “paperless”

# Activities to Date

- Work group
- Focus group and feedback sessions
- Technology planning
- Document review
- Process mapping

# What we've heard

- Consistent and timely communication
- Desire to do the right thing, need clear guidance
- Calibration and focus of findings
- Target technical assistance
- Tracking compliance issues
- Duplication of effort

# Implementation

## Pilot

Target: Fall 2008

1-2 regions for full implementation, optional in others

## Full Implementation

Target: Fall 2009

Roll out to all regions

# Demonstration

## *Case Study: Utah*

*Available by watching the archive.*
