

Categorical Program Directors

Webinar Archive—Enhancing and Streamlining the Categorical Program Monitoring System

ARCHIVE DESCRIPTION

The recorded event of the May 28, 2008, 10:00–11:50am is now available for your review. This first Webinar for Categorical Program Directors introduced what other states are doing; outlined the next steps for California; and provided for guidance and input from the field for creating such a system for the state.

HOW THE WEBINAR ARCHIVE WORKS

As you access the "Horizon Wimba Archive URL" below and enter your name into the participant field, the archive should load on its' own and begin to play within a few seconds. If not, hit the "navigation" button. The navigation button also appears on the bottom left hand corner of screen when you login.

There are two windows that open as you access to the archive. In the first large window the presentation will open. The presentation slides will automatically advance for you, and you will see and hear everything as it happened in the live presentation. The second small window is the navigation window for the slides. You can also move through slides within the archive by clicking on the name of a slide in the navigation window. This is a good way to view the sections of the presentation that are most important to you.

PRIOR TO VIEWING THE WEBINAR ARCHIVE

Please note that this archive combines streamed video and audio over the Internet, so it requires running a DIFFERENT wizard test than for the live event. Access this wizard at: <http://208.185.32.71/wizard/launcher.cgi?wc=qt>

NOTE: One common problem you may find would be that your browser has its pop-up window blocker turned on. Follow the help prompts in the wizard to find out how to unblock your browser pop-ups.

HOW TO VIEW THE WEBINAR ARCHIVE

1. Once you have run the wizard, go to:

http://208.185.32.71/launcher.cgi?room=CACC_2008_0528_1300_47

Use the PARTICIPANT login that reads, "If you were NOT provided a password for this presentation, please enter your name here."

2. Type in your name only, and please note that NO password is used; hit enter.

(Note - If you encounter any technical issues while viewing the archived presentation, please be sure that you have run and passed the Wizard that is appropriate for the archive.)

TECHNICAL SOLUTIONS

If you have any problems viewing the event archive you can always download the PowerPoint and follow along with the audio file posted on the CPM System website at:

<http://www.cacompcenter.org/cpmsystem>.

If you have any technical problems contact Kurt Larsen at klarsen@wested.org.
